BASEBALL

Norway High 5; Gould's Academy 4
A close and exciting game was played at Bethel, Saturday afternoon with Norway High and Gould's on an even running basis. Norway led by one mark until the fourth inning when the Gould's with Parrott's single added by three misplays put across three tallies making the score 4 to 2 in their favor.

Norway failed to do any run making until the eighth. Two errors, a passed ball and Kimball's single into left brought across a lone mark. In the 9th a batting rally featuring Nevins, Millett and Allen, netted a pair of runs and settled the contest. The score:

Norway High 23; Mechanic Falls 7

A regular whittling was the baseball game at Mechanic Falls, Wednesday afternoon when Norway High easily bagged the contest. The affair was a comedy of errors, heavy hitting and ridiculous situations. Norway pounded the sphere at will and turned the side show into a regular three ring circus. Carelessness and slowness after the first few innings gave Mechanic Falls the only plums offered during this affair. The score:

A Couple of Millions

Less than a hundred attended the drama, "A Couple of Millions" presented by the seniors of Stephens High School of Rumford at Norway Opera House, Saturday evening. The cast deserved a crowded house for the excellent manner in which the four act comedy was acted and staged. In the first place the parts had been carefully assigned and each student seemed just the right combination for the character portrayal. The play was under the direction of Edith L. Ireland, instructor of expression at Stephens High and excellent coaching was noticeable throughout the evening.

Specialties between the acts included "Tennis Time," "Girls of Yesterday" and of Today" and a "Coon Sketch" featuring Marcan's quartet. Each made a hit and were excellent numbers, cleverly rendered. Miss Clark, physical training teacher, and Katherine Hickey had charge of this part of the program.

The small house is no indication of indifference on the part of local patrons. Perhaps a more vigorous advertising campaign in the village with an arrangement for "boosters" at the local high school would have assisted materially to get the people out and witness one of the best school productions given here in some years.

Dora Kerwin, formerly of Norway, who has resided in Los Angeles, Calif., for some time past, is soon to sail from San Francisco for Manila, there to continue in the work she has been doing since her graduation from Emerson College and later from the University of California. Miss Kerwin teaches voice culture and dramatics, specializing in dramatic plays. For three years she was in the Hawaiian Islands. Her summer home is the Kerwin homestead in North Norway.

Timothy Heath and crew have built new cement steps at the front entrance of the Smith house on Deering street. The women's public social after the next meeting, Tuesday evening, May 23, there will be a penny cake walk and an old fashioned spelling match.

Mrs. O. J. Foss is having a vacation from her work at the store because of her hand, which was recently operated on, but it is doing nicely.

Two automobiles loaded to the limit with guests attracted a crowd on Main street Friday afternoon. During the halt the women got busy with the palm, while the men folk longed for reading game while the babies. The little girls went shopping and the men boys followed the example of the men and loafed around the baggage.

Mildred Curtis was at home from Yarmouth for the week-end.

Mother and Daughter Banquet

One hundred and seventy-three ladies were present at the banquet and get-together at Norway Grange Hall Wednesday evening. The meeting was arranged as a community gathering with the religious, Episcopalian, Universalist and Congregational Churches. The menu included grapefruit and cherries, cold meats, hot mashed potatoes, hot rolls, salads, tarts, assorted cakes, ice cream, coffee.

Mrs. Herman L. Bartlett, toast mistress during the most grand exercises and a number of the ladies responded. Mrs. Jennie Bates Russell as chairman of the reception and program committee arranged several numbers but as time passed quickly only two were given, a vocal solo by Rosie Noble and "Star Spangled Banner" by the company.

All adjourned to the hall above where an informal talk was given by Alice Louise Brown, general secretary of the Y. W. C. A. of Auburn and Lewiston.

Board of Trade Banquet

Between sixty and seventy members of the Norway Board of Trade enjoyed the supper at the Congregational Church dining room, Wednesday evening, served by the Ladies' Circle.

Hon. B. G. McIntire, president of the Board, presided during the exercises which followed. H. A. Shorey, Jr., chief of State Motor Vehicle Department explained in detail the laws applying to automobiles on the highways. Visitors were present from Watford and the rural districts were largely represented.

Restaurant Changes Hands

Herbert S. Shorey is to leave to settle in Portland. Mr. Shorey came to Norway early last fall and bought out Mrs. Mary Burnham who run the restaurant in the Noyes Block which was originally opened about three years ago by I. Krook of Old Orchard. Mr. Shorey built up a fine business and made many friends here. He plans to give all his time to the affairs of the Eastern Service Co. Incor. at Portland, which is an investment of \$10,000 a year, and a half interest in the Eastern Service Co. Incor. Mr. Shorey has carried on his business connections with both the Norway and the Portland line.

The business here will be conducted by a Lewiston man, C. L. Barnes, a native of Pittsfield, who for the last 14 years has lived in Lewiston, although his business has taken him North and South in hotel work.

For the last few months Mr. Barnes has been operating a grocery store in Lewiston, which he has now leased to R. W. King. His parents formerly lived in Lewiston, but he lost his father about two years ago, and now he intends to make a home for his mother, Mrs. Mary E. Barnes, in Norway. Mr. Barnes is a Mason, belongs to Kora Temple of the Mystic Shrine in Lewiston, and also is an Odd Fellow, having held office in Golden Rule Lodge in Lewiston.

Mr. and Mrs. George Buswell move this week to Portland to make their home. Willard Buck spent the week end with his parents, Mr. and Mrs. Charles Buck.

The Norway-Paris band is rehearsing special music for Memorial Day. Ben and Henry Hosmer have their radio set completed and ready for connections with the aerial. They made the instruments and have one of the best homemade sets in this vicinity.

Mother's Day was observed in the churches, Sunday, and special reference made of its meaning and significance. Mrs. Elizabeth Swett, who has been spending the winter in Cambridge, Mass., returned to Norway this week end.

Carpenter work has commenced on "Mac's" tea room to be located near Leavitt's grove on the highway by Lake Pennesseewassee. The building will be 24x14 feet with a veranda eight feet wide on two sides and neatly painted. Considerable grading will be done, flower beds laid out and many things added to make the surroundings attractive. Rustic tables and chairs will be placed in Leavitt's grove and the point made free from small growth and rocks. Mr. and Mrs. E. M. McCarthy will spare no expense to make the spot a good one.

Earl Swan and family are well settled at the Swan homestead on Alpine street. He has employment at the Norway Shoe Co.

Harry E. Gibson has shipped his household goods to California, where the family plan to settle permanently. Mr. and Mrs. Gibson, their daughter Mary, and Mrs. Gibson's father, Bradley Frost, will leave town in a short time. Leslie Gibson will remain here for a time and Marion E. Gibson, who is conducting the Fashion Shop will not go West.

An aerial is being installed on the American Legion headquarters for radio messages. An up to date receiving set is in place and the boys will soon listen in on the concerts and lectures that broadcast every evening. For the present the outfit will be available only to members of the legion and their friends, later the public may enjoy the air messages on stated evenings.

Carl S. Fuller, principal of Buckfield High School, was a guest of friends here Sunday.

Judge William F. Jones, John A. Woodman and Albin L. Buck went to Conway, N. H., Tuesday, for a few days outing, hill climbing and fishing.

Mr. and Mrs. Roy Pratt, Dorothy Pratt, Madelyn Burgess, Virginia Tubbs spent the day, Sunday, at South Arm with Mr. and Mrs. Walter Tubbs and Mr. and Mrs. Olney Burgess.

Mr. and Mrs. George W. Devine and daughter Louise of West Paris spent Sunday with Mr. and Mrs. Frank E. Decoster, Pike's Hill.

Mr. and Mrs. Emil Hermes of Hebron were guests of Mrs. Hermes' father, Otto Schuer, and sisters, Clara Schuer and Mrs. Alice Adkins.

Marian L. Downing who has been book-keeper for some months for the Ellingwood Turning Company, West Paris, finishes work there this week and will take Jessie Beyer's place as cashier at Brown & Buck's store next week.

Merrill-Purinton

George Harris Merrill of South Paris and Marion Agnes Purinton of Norway were united in marriage Wednesday morning at the home of Ralph Flood at Norway Lake. Rev. T. C. Chapman was the officiating clergyman. Only members of the immediate families were present.

The bride is the daughter of Mr. and Mrs. Walter W. Purinton of Danforth street and a graduate of Norway High School in the class of 1918. For a time she was a linotype operator in the Advertiser office, but of late has been employed as a post stitcher at the Carroll, Jellerson Shoe Co.

The groom is the son of Mr. and Mrs. Irving Merrill. He attended Paris High School and was employed at various times at the Paris Manufacturing Co. The past two years he has worked at the Carroll-Jellerson Shoe Co.

They will make their home with Mr. and Mrs. Purinton for the present and keep house later when a desirable rent can be secured.

Agricultural Class Notes

The third and last incubator tests have been made with the following results. Incubator No. 1 contained 150 Barred Rock eggs from the Decoster farm in Buckfield, a gift to the class. Three were canceled out and 132 strong chicks hatched. There were also 90 R. I. Reds from Mrs. Harry Jackson's pens, with 3 canceled out and 80 vigorous chicks hatched. This incubator gave a 75 percent hatch.

Incubator No. 2 held 140 White Leghorn and Reds eggs. Twenty were canceled out and 102 chicks were hatched. This was a 75 percent hatch.

The Freshman and sophomores with Prof. Brown made a field excursion to Harry Goodwin's poultry farm Wednesday forenoon. They inspected the plant and incubators and observed the tractor at work.

Baseball was in order after school the high school freshmen at the fair grounds with a 9 to 3 score. The "farmers" team included the following players: Alva Richardson, p; Geo. Young, c; Lesie Richardson, 1b; E. Cummings, 2b; W. Smith, 3b; Edward Brown, s; E. Watson, lf; H. Nevins, rf; A. Packard, cf. High freshmen were represented by W. Berry, p; A. Labossiere, c; F. Philbrook, 1b; E. Emerson, 2b; Mark Smith, 3b; D. Kilgore, s; H. Hill, lf; M. Wadley, cf; R. Gray, rf; D. McAllister, (sub on bench).

"Manny" Palmer umpire. Runs were made by W. Smith, Packard, Nevins, Young, A. Richardson, Watson, Cummings, Brown, L. Richardson, Wadley (home run), Berry, Gray.

The "Aggies" met at the fair grounds Tuesday afternoon to play the South Paris Indians. The Indians failed to show up and forfeited the game.

County Typewriting Contest

Twenty-six pupils, entered from the high schools of Rumford, Mexico, South Paris and Norway, competed for honors in typewriting at the high school gymnasium at Norway on Saturday afternoon. Entries were made in two classes—the A class including advanced students of typewriting; and the B class including those who began the subject not previous to September 1, 1921.

The test material furnished by the Underwood Typewriter Company proved to be very difficult, and taxed to the utmost the ability of even the best typist. However, each pupil entered the contest with the intention of doing his best for his school, and the mastery manner in which many of the pupils handled their machines during the fifteen-minute period, winning respect and credit on themselves and their instructors. Since the papers are to be forwarded to the New York office of the Underwood Typewriter Company for rechecking and grading, it is thought advisable to delay the publication of the ratings until they are approved by the Company.

The prizes offered in each class were five dollars to the winner, and two dollars to the one securing second place. The following students graded thirty or more words per minute, and are listed according to position secured.

Class A—Richard Perkins, Norway High School, 933 words, 12 errors, penalty 120, 54 net words, first prize; Mary Robertson, Stephens High School, Rumford, 823 words, 11 errors, penalty 110, 48 net words, second prize; Elizabeth Howard, Stephens High School, Rumford, third; Verna Kimball, Norway High School, fourth; and Roland Tyler, South Paris High School, fifth.

Class B—Sarah Black, Norway High School, 839 words, 18 errors, penalty 180, 44 net words, first prize; Doris Merrill, Norway High School, 889 words, 23 errors, penalty 230, 44 net words, second prize. The first prize was awarded to Miss Black because she made fewer errors than Miss Merrill.

The next six positions were all secured by Norway High School students in the following order: Alice Lewis, Dorothy Newcomb, Thelma Robbins, Colia Hancock, Janet Noyes, and Alice Isaacson. Miss Thelma Robbins has the honor of making the least number of errors, nine, with a net speed of 41 words per minute.

Miss Howard wrote the greatest number of gross words, 112, but unfortunately omitted 24 words from the copy, which cost her 240 words from the total written. However, after deducting these words from the total, she was nearly equalled that of Miss Robertson.

Pupils from Rumford and Norway will compete again for the state championship at the State Contest to be held at Augusta next Saturday.

Henry Stone Post, American Legion will have young ladies on the streets selling daisies and poppies Saturday, May 27. The daisies is the Legion flower and the poppy is a memorial emblem adopted by the French. These can be worn on Memorial Sunday and on Memorial Day.

Mr. Hope Rebekah Lodge will work the degree Friday night, May 19. There will be a buffet lunch after the work. All who are not solicited carry a plate of refreshments. Meeting opens at 8 p. m. The committee in charge is Mrs. Lena Kimball, Mrs. Cora Kimball, Mrs. Grace Dunn.

Clarence M. Smith's residence has received a coat of paint. John Hutchins was the workman.

SUPREME JUDICIAL COURT

At the recent May term opening of the Supreme Judicial Court, at Rumford Justice Hon. George M. Hanson presiding one of the largest gatherings of attorneys in the history of the court were present and the court room was crowded with spectators. The last session of the court held at Rumford last May, Justice Warren C. Philbrook presiding, lasted 20 days and was one of the longest sessions but this session is not expected to last that long.

The cases to be tried were as follows: Charles W. Young vs. Burt W. Dennis, Hastings and Son, Attorneys Batchelder and Wheeler. Richard F. Chase et als, vs. Irving L. Cram, Hastings & Son; Randall. Fred Kilgore vs. Clarence Decoster, Conary and Smith.

Nellie O. Milliken vs. Elias P. McKenney, Conary and Wheeler. Henry C. Conary vs. Union vs. E. D. Millett et al, Conary and Jones. Ben Stomkus vs. Zigmund Youbolski, Belliveau and Hutchins. New Entries for Trial: Bessie M. Hill vs. Anselm Tervo, Gray.

Charles W. Young vs. Antoine Turcott, Ashworth and Beliveau. Della Turcott vs. George Newton, Ashworth and Beliveau. Eugene H. Denson vs. Nichola Palemina, Hutchins and Beliveau.

George E. Goding vs. A. L. Colburn, Foster, Dwyer and Swasey. John Milton, McCann, Frank T. Knight vs. Walter Hanson, McCarthy and Foster. Joseph L. Belanger vs. Ernest C. Messier, Applt. Beliveau and Foster.

Paul Lyette vs. John Wiskout, Applt. Beliveau and Hutchins. Pennevasse Nat. Bank vs. Charles G. Fox, Lyons and Perkins. Following are the continued cases that will be tried at the end of the docket: Henry F. Richards vs. Frank R. Hines, Dwyer and Swasey. W. F. Stock & Sons vs. J. Emile Fournier, Wing, Stearns and Beliveau.

Walter H. Hines vs. Hassam Paving Co., Wheeler and Davies. D. D. Holman vs. M. E. Prout, Gruo and Randall. COURT LIST. Herrick Bros. Co. vs. Leo E. Bubier et al, Hastings and Hutchins.

Ford et als, Stevens and Morey. Robert T. Brewster vs. M. A. Prescott, Beliveau, Stearns, Hinkley and Hinkley Wheeler. Everett Perry vs. Arthur Libbey et al, Hastings & Son, Stearns.

Only one case was tried before the Supreme Judicial Court Saturday, that of Ben Stomkus vs. Zigmund Youbolski, a personal damage case, was tried and resulted in a verdict for the defendant.

Three criminal cases were tried; Merton E. Rawson of Canton charged with passing bad checks, pleaded not guilty. The case was not pressed. Frank Wazn, indicted for having in his possession a still for the manufacture of liquor, pleaded guilty and was given a sentence of two months in jail and a fine of a thousand dollars.

Charles P. Kimball of Norway who was indicted for operating an automobile in the vicinity of Fryeburg while intoxicated pleaded guilty and was fined \$100 and costs, amounting to \$47.50. Paid and discharged. The Norway case was filed.

The contract case in which Fred Kilgore real-estate dealer of Norway sued Clarence Decoster also of Norway for a \$200 commission on an alleged sale of the defendant's homestead on Elm street represented by W. G. Conary endeavored to show the transfer was made through the efforts of Mr. Kilgore, therefore the commission was a just recompense for his work. The defendant through E. F. Smith Esq. denied any contract existed and the negotiations and sale were entirely through the efforts of the defendant. The jury brought in a verdict in favor of Mr. Decoster.

DON'T LEAVE NORWAY

No Need to Seek Afar. The Evidence Is At Your Door

No need to leave Norway to hunt up proof, because you have it here at home. The straightforward statement of a Norway resident like that given below, bears an interest for every man, woman or child here in Norway.

Albert F. Prescott, shoemaker, Crockett's Bridge, Norway, says: "My kidneys gave out a year ago and I had backache so badly it put me past going for several days. I couldn't bend, I was so stiff and lame. I was working in the ship yards at the time and I blame so much heavy lifting for my trouble. I had to get up several times during the night to pass the kidney secretions and I felt drowsy all the time. Finally I went to Stone's Drug Store and got three boxes of Doan's Kidney Pills and began using them. Doan's reached my case at once and after using three boxes, the trouble left me entirely. I have felt fine since."

"TOO MANY REAPERS, NOT ENOUGH SOWERS"

Savings Bank Official at National Conference says: "The trouble with the American people today is too many reapers and not enough sowers," said President George E. Brock of the National Association of Mutual Savings Banks, at its 3rd National Convention.

"When I read about the number of unemployed on one page of my newspaper this morning and saw on the next paper that there were fewer American farmers than ever before, I was forced to conclude that we, as a people, have got to get a new economic start."

"I am afraid that while we are talking about hard times we are really sleeping over the greatest opportunity that any nation ever had. We must get back to some of the early principles of American life. Hard work and prudence were the foundations of this Republic. Now we have fallen upon easy ways of living. Everybody wants to ride in a limousine and I fear that if we all had one some of us still would not be happy. So much talk about shorter hours, less work and easier ways of doing things is not altogether helpful. The only way to build character in a man or a nation is to meet and overcome difficulties. Happiness is gained by achievement alone, whether it is hoeing a row of corn or running a government."

"There is too much spirit now-a-days to let the other fellow do the work. Each of us has got to do our share if we are going to realize the possibilities of this generation. I think that every school in the country should try to inculcate the idea of being willing to work and finding joy in doing it."

"That is more important than all of the academic and scientific facts that can be put into the head of any young man or woman. The next step is saving. Our schools should teach this: beginning with the alphabet and ending with the diploma."

"What has become of all the billions that were paid to the American people during the war. Although our savings bank deposits have grown, the percentage compared to the whole is so small that we cannot escape the conclusion most of the money was wasted. Too much of it went for silk shirts and cigarettes. We savings bankers are trying to convince the American people that they must save a fair share of their income if they expect to be independent—the most precious privilege of life. If all of us would resolve to stop envying those who have a little more than ourselves, and make up our minds that we would create our own individual prosperity we could soon have greater prosperity than we ever knew. There need be no fear of unemployment, or hard times if we all do our part."

Studebaker

LIGHT-SIX SEDAN

\$1750

f. o. b. South Bend

See This New Low-Priced Sedan!

Two more cylinders make a world of difference.

You notice it when the LIGHT-SIX slows down to a snail's gait in traffic. You notice it when the open highway ahead invites the throttle. You notice it in the greater responsiveness, the greater flexibility, the greater s-m-o-o-t-h-n-e-s-s and in the absence of vibration.

There are new driving pleasures waiting for you in the Studebaker LIGHT-SIX Sedan.

Not only is its motor more powerful, more flexible and freer from vibration

than any other light six-cylinder motor ever produced, but the perfect distribution of the car weight over all four wheels gives it unusual riding and driving qualities.

If you have been accustomed to driving a "four," the responsiveness of the LIGHT-SIX will be a revelation. If you are now driving another six-cylinder car, the lack of vibration and perfect balance of this LIGHT-SIX will create new standards of riding comfort.

But, equally important, is the new low price of \$1750—an intrinsic value without parallel in the industry!

Studebaker is the World's Largest Builder of Six-Cylinder Cars!

LOVELL
Black Mountain
Ed Berry went to Bridgton Tuesday after his mother, Mrs. Esther Berry, who is to live with him for a while.
Mrs. Clarence Jones has been moving her goods from her former home in this neighborhood. It is with sorrow we see her move away. To the younger as well as the older members of the neighborhood she has always been a kind and faithful friend and neighbor, one who was always thoughtful and ready to help in time of either joy or trouble.
Stephen Flynn has left Calvin Briggs. A number of farmers around here turned their cattle away to pasture last Sunday, May 7.
Most suckers are out of the water.

CENTER LOVELL
Mrs. Carrie Vance has been in Portland for a few days.

A union service was held in the Congregational church at 6 P. M. A delegation from the student volunteer class of Bates College gave a very interesting service.
A. C. Greenlaw is building an addition to his stable. W. S. French and son Perley are at work for Mr. Greenlaw.
H. C. Delano was in Portland on business, Saturday.

CASCO
Prize Speaking Contest
The prize speaking contest of the Casco High School was given at the Union Church, Casco, Friday evening, May 12, followed by the conferring of prizes and a social with ice cream, at Casco Grange Hall. Music was furnished by Leach's Orchestra. The attendance demonstrated the interest in those taking part and the expanding interest in Casco High School. It was intimated by Supt. of schools, Howard Gilpatrick, that in the future it be called "The Hancock Prize Speaking Contest" as S. O. Hancock always donated the money for the prizes. The judges were Joseph Heniger of the Songo Camps, Otisfield; Charles Varney, former superintendent, but now superintendent of Gray, Gloucester and Windham; and Gardner Cole of Raymond, also a former superintendent of Casco Schools. Mr. Heniger in conferring the four prizes gave a very appropriate speech, stating that the points given by the different judges were closely allied and their vote unanimous. The first prize to the girls was to Leona Hall; to boys, Hartley Curtis. The second prize to girls, was to Louise Taylor, and to boy, Kenneth Hancock. The program was as follows:
A Real Incident of a French Gunner.....Harriet Burgess
Ray's Ride.....Merrill Frank
Karl the Martyr.....Hartley Curtis
Vocal duet, Francis Hall and Catherine Burgess
Accompanied by Russell Baker.
How the Old Horse Won the Bet.....
The Maiden Martyr.....Theodore Proctor
No Room for Mother.....Frances Edwards
The Boat Race.....Kenneth Hancock
Big Bob Simpson.....George W. Carpenter
Vocal duet.....Russell Baker and Ernest McLane
The Painter of Laville.....Louise Taylor
The Life Boat.....Leona Hall
Notable mention should be given to each of the above and also to Mrs. Gilpatrick, assistant principal, who drilled the girls, and to Principal Baker, who drilled the boys.

NORTH FRYEBURG
Interesting Recital
A very instructive and interesting recital was given at the Stevens Library Wednesday evening, May 10. Archie Hurd presented the program, which was well selected and exceptionally well rendered.
North Fryeburg is unusually fortunate in having a young man of Mr. Hurd's musical ability and talent, for the only way to understand and appreciate the great master, is to have their work presented in an artistic and effective manner. Program:
(a) Allegro from Sonata in D.....Mozart
(b) Fantasia in Dmi.....Torjussen
(c) Musette.....Bach
(d) Two Minnets.....
(e) Invention in F.....

Something New by HUDSON

The
Coach

Five Passenger

\$1795

On the Famous Super-Six Chassis

This beautiful closed car is the
most attractive value ever offered
by Hudson.

We are now showing it for the
first time. Come see it. It con-
cerns you personally—and your
plans for buying a car, whether
open or closed model. An exam-
ination of the Hudson Coach will
pay you well.

The Coach will cost you less even
than the open model of any car to
which you compare Hudson in
quality, performance and reliability.

And see how fully it meets your
closed car requirements at a sav-
ing of perhaps \$800 to \$1500.
Think of a closed car on the famous
Super-Six chassis, for \$1795.

That is less than 6 percent above
the cost of the Hudson open models.
It is the lowest differential between
open and closed cars ever attained.
It is a sensational achievement in
car manufacture.

You need no other assurance with
respect to the beauty, quality and
smartness of the Coach than the
fact that Hudson has always led in
building fine closed cars. It has
created styles that are patterns of
the industry. The Coach is in keep-
ing with Hudson's best traditions.

It is certain to be the most popular
type Hudson ever built. Be sure
to see it. It is just out. Early de-
liveries will be possible for those
who place their orders at once.

The Wentworth Poultry Fountain

(Patent Applied For)
We have recently perfected and are now offering a new fountain or watering
system known as THE WENTWORTH POULTRY FOUNTAIN. It has been de-
veloped with the idea of lessening the spread of diseases through the drinking of con-
taminated or impure water. The fountain or main body of water is entirely separate
from the drinking vessel. Water is automatically drawn from the fountain and
maintained at any predetermined depth in the drinking vessel. It will thus be seen
that it is impossible for the main body of water to become contaminated, for it does
not come in direct contact with water in the drinking vessel. The object, therefore,
of the fountain is to automatically supply fresh pure water as required by the birds,
and its advantages are as follows:
FIRST—The Drinking Vessel, being separate from the main body of water, may
be rinsed or disinfected at will without interfering with the fountain or main water
supply.
SECOND—There are no float valves, air tight caps, or anything of the sort to
get out of order. Its construction is simple; its operation is positive and pleasing.
THIRD—It is durable—will last a lifetime, and is inexpensive.

OXFORD COUNTY COUNCIL REPORT

Scout Executive Harold C. Perham issued an official statement to May 1, showing the growth of the Boy Scout movement in Oxford County during the past seven months.

According to the report the organization last November was practically defunct and only two semi-active troops in this territory with one official scout master. In the meantime under Mr. Perham's earnest labors the county council has received new impetus, with fourteen organized troops of scouts and 315 boys officially connected with scouting in the county. Three more troops are in the state of organization.

It is with considerable pride we boost the Oxford County Council for it stands second with other first class Councils in Maine as follows:

Portland Council—377 boys.
Oxford County Council—315 boys.
Penobscot Council (Bangor)—227 boys.
Saco-Biddeford Council—200 boys.
The following towns have active troops with wide awake scout masters and a local organization interested in the progress of the boys. The towns are West Bethel, Bethel, Locke's Mills, Bryant's Pond, West Paris, South Paris, Norway, West Sumner, Buckfield, Canton, Dixfield, Mexico 1 and 2, Rumford, Andover, Rumford Point, Rumford Center, Oxford and Hartford are swinging into the column of live ones.

According to the report West Paris has the leading troop in Oxford County at the present time. Membership has increased from 14 to 32 boys, and gained more results in scout craft than has any other troop.

The committee has decided on a \$300 budget for the year, to be raised wholly by voluntary contributions and used to promote scouting in this county. Expenditures are classified as follows:

Executive's Salary.
Executive's Expenses.
Organization of troops.
Supplies for troops.
Deficit on Camping.
Scoutmaster Training.
Hikes.
Leadership training for boys.
Advertising.
National Quota.
Telephone and Postage.

Oxford County Scout Camp is the big idea and every scout is on edge to enjoy out door life when the opening date arrives. L. C. Bates of West Paris has purchased 125 acres at Locke's Mills bordering Dudley Lake for a permanent camp site and the boys will have free range during the camping program, and under competent leaders. Boy Scouts and officials will be charged only a small sum per week to cover all expenses. Any deficit will be paid by the Oxford County Council. Each person will carry blankets eating utensils, and small camp equipment, everything else will be furnished. One grand program of sports, field and camp instruction under competent leaders, and clean outdoor life is being laid out. All of this will probably take place in July or August.

The Oldest Paint in the Newest Form Dutch Boy Liquid Lead

Liquid Lead is simply the old-fashioned lead-in-oil, ready for use, mixed by the manufacturer of the white-lead instead of by the user. It is white paint and does not come colored, but can be tinted to any desirable color. It has the quality of the best white-lead paint, the convenience of being able to start painting as soon as the can is opened and the satisfaction of using a Dutch Boy product.

Dutch Boy Flat White

When a flat or semi-gloss finish is desired, as for interior walls and woodwork, use Dutch Boy Flat White. This is also a pure white-lead paint, but is designed to give flat effects, delicate in color, rich in tone, yet durable and washable.

Dutch Boy Paint is Economical

because of its great spreading capacity, which makes its cost per square foot less than many paints which cost the same per gallon and also because of its great wearing qualities. As it contains only pure materials and weighs over twenty pounds per gallon, it can be thinned and tinted in any manner desired. Call and investigate or send for a descriptive booklet.

Brighten Up!

"Brighten Up" time is here — the time to clean up about the house, renovate, and make the old things look neat and clean again. We can help you in the work with our line of **SHERWIN-WILLIAMS PAINTS AND VARNISHES**

It is really surprising what a little paint or varnish will do toward brightening up dingy surroundings. Take Family Paint for instance. This is a linseed oil paint specially prepared for home decorating and painting. With it any one can renew the appearance of a hundred little things that now look worn and old. It dries with a good gloss and will stand scrubbing with soap and water. Comes in 26 attractive shades.

S-W Floorlac is another splendid household brightener. It is a stain and varnish combined and can be used on old or new woods equally well. Imitates the natural woods and gives a most pleasing effect. These offer a few hints for you.

Come in and have a "Brighten Up" talk with us and learn more about how we can help you in your housecleaning. Our line has a paint or varnish for every purpose.

Perfect Broiling

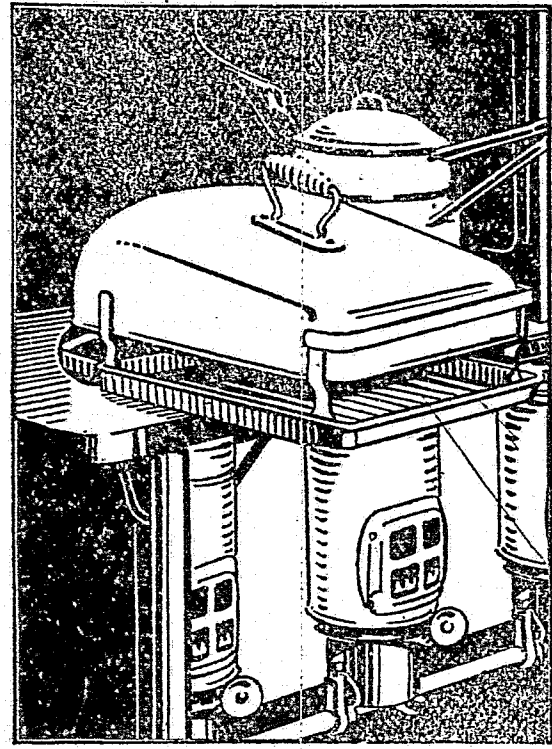

not the tedious process it used to be

WITH the New Perfection Broiler you can broil a 3-lb. steak perfectly in 20 minutes. There is no smoke or odor as in the case of broiling over coal or gas—no burning fat. You don't have to touch the steak or turn it. The heated air circulates all round and sears the steak (or fish, as the case may be) thoroughly on the outside, thus retaining all the juices.

Every kind of cooking can be done easily and economically on a New Perfection, and it is a real all-the-year-round stove, too.

Broiling, preserving, baking, roasting, boiling and frying—a tender steak, delicious jams, crisp molasses cookies, a savory roast of beef, stewed tomatoes, or a quick fry of bacon and eggs. All done easily—no trouble with drafts—no drudgery with coal, wood and ashes.

Ask your dealer to show you how simple the New Perfection is to operate.

WILSON'S MILLS

Services at both churches Sunday, May 7, were conducted by Rev. H. E. Seymour of Whitefield, N. H.

Arthur Littlehale had the misfortune to badly injure his ankle, Monday, when his horse became frightened and he was obliged to jump from a load of hay.

S. W. Bennett, who has been in the St. Louis Hospital at Berlin for a fortnight's treatment for sciatic rheumatism returned home, Monday.

The new road inspector, F. E. Francis was in town, Tuesday.

Mr. and Mrs. W. H. Hart and Mr. and Mrs. J. F. Hart and children went to Portland, Friday. They were accompanied as far as Lewiston by Mr. and Mrs. Arthur Littlehale.

MASON

Mr. and Mrs. Merle Swan of Bethel visited at E. C. Mills', Saturday afternoon.

Elmer Grover has finished working in the saw mill for F. I. Bean.

S. O. Grover and Lillie Baker visited at Selden Grover's in Bethel, Sunday. Myron and E. H. Morrill each sold G. D. Morrill of West Bethel some hogs one day recently.

Steering wheels and knuckles should be inspected at least once a week.

THE LADIES' AID met on Wednesday afternoon, with Kate Starbird.

The Women's Home Missionary Society will hold a meeting Friday evening with Mrs. Etta Town, who will be both hostess and leader.

The work on the Congregational church is nearly completed. The furnace room has been excavated nearly two feet and the room cemented; a new chimney and a new furnace installed, two small rooms finished and other changes made on the interior. The grounds have been improved by a gravel driveway and sidewalk and about 40 shrubs have been set out. The grounds will be further improved another year.

Entertainment and Sale

An appreciative audience witnessed the fine entertainment given by the Ladies' Aid of the Congregational church Friday evening. The following program was given:

Pres.—Irma Delano.
Vice Pres.—Evelyn Farrington.
Sec.—May Hanscom.
Treas.—Florence Davis.
Work Committee—Stella Addison, Pearl Holden, and Lennie Serette.
Entertainment Committee—Eliza Farwell, Chester Committee—Clara Walker and Gertrude Reed.

The parts were well taken and the audience showed its appreciation by hearty applause. At the close of the entertainment five booths containing mystery packages began their sales. A large fir tree was hung with packages; this was in charge of Nellie Hayes and Evelyn Farrington. The fish pond in charge of Louise Wood and Winifred Baker, was the first to dispose of its wares. Mildred Lord and Edith Kemp served the "Souvenir Pudding." Their decorations brought forth many favorable comments. An immense maybasket contained articles for adults and the sale of its contents, brought in the largest returns, \$7.00. These articles were sold by Leo-tine Stiles and Ethel Coulton. A very attractive sight was the rose garden. To each rose was attached a package, the white ones for girls and pink for boys. Pearl Holden and Lula Andrews sold these flowers. May Hanscom and Florence Davis, were unable to serve as postmistresses, but the help they rendered was distributed with the other booths. Their post office will be used at the lawn party to be held July 7.

The receipts were \$46.00. Entertainment committee were Mamie Farris, Lula Andrews, Edith Kemp.

Raymond Buker and a band of student volunteers from Bates college were at the Congregational church, Sunday, and assisted in the morning service. A sermon appropriate to Mother's Day was given by Mr. Buker and special music by the visitors. In the evening, Dorothy Wiggin, Helen Burton, Frank Dow and Glen Ross each spoke six minutes. Miss Burton sang and gave selections on the accordion. The opening exercises of the Sunday school consisted of a Mother's Day prayer, a hymn for Mother's day and a poem read by Miss Farris. The volunteers were guests of Dr. and Mrs. H. R. Farris and Mr. and Mrs. J. E. Parrott, while in town. Mrs. C. C. Davis was in charge of the floral decorations.

R. H. Lovejoy, county agent, Miss Anita Nicholson, home demonstration agent and Mrs. R. H. Lovejoy met Monday evening in the Parish house to assist the girls in cutting their uniforms.

The Montrose Study Club met with Mrs. F. W. Lord, leader, Monday evening.

HARTFORD

Guilty to Search and Seizure.
As a result of a raid at her home, Miss Winnifred Robinson of Hartford was before Judge Stephenson of the municipal court at Rumford, Monday afternoon.

It is alleged that Deputy Sheriff Billings of Bryant Pond and Deputy Sheriff Record of Buckfield raided the home of Miss Robinson last week and found eight quarts of moonshine and a still.

Two distilleries were discovered Thursday in the woods and as a result George Tucker of Hartford was before Judge Stephenson Monday and held in \$1500 in hearing May 25. It is reported that any complaints have been made around Hartford, about liquor being in evidence and representatives of the Federal department are said to have visited the town.

Miss Robinson is well known in Oxford county, being the daughter of Scott Robinson of Hartford. For several years she was in Boston and New York, where she was active in musical circles. Since coming back to Maine, she has sung on several occasions. At the organization of the republican town committee by the women of Hartford, Jan. 13, 1920, Miss Robinson was made a member of the committee and gave a stirring address touching upon prohibition, woman suffrage and other matters.

When arraigned before Judge Stephenson of the municipal court here Monday, Miss Robinson pleaded guilty to search and seizure charge, and the case was continued for one week for sentence.

LF Loss of Time when Sick

means loss of money, as well as physical suffering. Many forms of illness are avoidable by the use of a few common sense precautions. Don't hurry your meals. Take time to chew your food properly; mastication is the first and an important part of the digestive process. Don't eat when over-tired; rest a few minutes, it will pay you. Don't borrow time for work when you should rest or sleep. Drink lots of water, and get your full share of exercise. Don't allow your bowels to become constipated, but if this should happen, don't delay taking a dose of "L.F." Atwood's Medicine when you go to bed. It has been a safe, reliable remedy in hundreds of homes for more than sixty years. Large bottle 50 cents—one cent a dose. All dealers supply it. "L.F." MEDICINE CO., Portland, Maine.

NORWAY AND VICINITY

Small Boys Started Something

Two youngsters with matches started a celebration in a packing case filled with excelsior Friday afternoon. The affair was pulled off in the alley between American Legion hall and the Frank Murdoch place, and promised to develop into a spectacular show.

"Billy" Saunders, a linotype operator in the Advertiser office, noticed the youngsters feeding the flames and gave the alarm. The Advertiser fire department, comprising Chief Murch and excelsior men, Steward and Chandler, made a quick run across the street, but the honors fell to Billy Walker with two pails of water, and the flames were doused.

The youngsters "beat it" up Whitman street and were not found for some time. Probably a shingle was used as the boys' parents started on the war path in a business like manner.

David Frost Farm

The late Richard E. Clement purchased the David W. Frost homestead farm on Pike hill instead of the Parsons farm. The farm was first owned by Mrs. Frost's father Ephraim Briggs and she (Vesta) was born there.

In 1852 she was united in marriage to David W. Frost and they always lived on the old farm until Mr. Frost's death. The buildings once stood near the top of Pike hill where the cellar still remains. Mr. Frost later moved them down the hill to the "four corners." It is said they were moved by a long team of oxen and so steadily and carefully were they hauled that an egg being on a girl in the barn did not roll off.

A short time after Mr. Frost's death, Mrs. Frost went with her son and family to live at Norway Lake, about a mile below the old home farm. Mrs. Frost in her younger days was a very beautiful singer and people living across the long valley on the top of Frost hill have heard her sweet voice mingled with that of her husband as they sat on their front door step on a clear calm evening singing the old songs together. Mr. and Mrs. Frost are sleeping in the little cemetery at the top of the hill just a few rods from the home they loved so well. The old homestead is more than a century old, and is and always will be a very dear spot to their children and grandchildren.—A Reader of the Advertiser.

A. L. Hollingsworth opened a broad side at the office force Tuesday in this wise: "Cut out that blooming advertisement." Well said! He wanted to sell a refrigerator and put in an intelligent ad for three weeks. One week did the trick so he dropped in to stop the flow of applicants.

So great has been the demand for movie plays suitable for children, manager DeCroteau has at last secured Red Riding Hood to be shown at a matinee Friday. There are five reels with 350 children in the cast.

Merton L. Kimball is negotiating the purchase of the Cole buildings occupied by A. L. Cook, the barber, located between Stone's pharmacy and the hose house. The rooms upstairs to be used for his law office.

Melvin "Cappy" Smith smashed the ends of two fingers while handling a cask of lime. He is doing only light work on the cement jobs while the injury is healing.

The flag at the American Legion headquarters was at half mast Monday in honor of Private Oscar Valley whose remains were buried that day. The body had been resting in the ambulance since its arrival from overseas in February.

Memorial Day plans so far as completed are as follows: Memorial sermon at the Methodist church Sunday morning, May 28 by Rev. T. C. Chapman. The G. A. R. and all patriotic organizations will attend in a body. The usual parade and exercises at Norway Pine Grove and Rustfield cemeteries on the morning of Memorial Day, May 30. Dinner will be served at noon. Rev. C. G. Miller will deliver the address at 1:30 P. M. at the Norway Opera House. Music during the day will be furnished by the Norway-Paris band.

Stephens High School of Rumford played against Norway High School at the fair grounds Saturday at 2:30 P. M. The teams are evenly matched and an exciting contest may be expected.

George Keville arrived Monday evening for a few days' visit. He was a prominent player on the Twin-Towns last season and the management has offered him inducements to secure him this summer.

Mr. Keville has taken the entrance examinations to Harvard and had planned to attend a summer school. He may decide to return for baseball.

William Kneeland has employment in the C. B. Cummings & Sons Co. dowel mill.

George Tripp, head of the street cleaning department, says, "The gutter is no dump for waste paper, stale bread, fruit skins and tobacco boxes. Ordinary dirt is expected, but the collection found in places seems unnecessary."

Fred Kelley has returned to the Paris Manufacturing Co., as night watchman after an absence of several weeks.

Mrs. Marguerite (Frost) Bowser, who was recently married has been presented with a handsome electric reading lamp by the employers of the local Central Maine Power Company as a wedding gift.

Mr. Bowser is employed at the office as book-keeper.

Forrest Conant of Buckfield and Virginia Hall of Norway won the five dollar prize in the waltz at the dance held at the Norway Opera House by Mr. Perry and Mr. Boulger of the Oxford Spring House.

Mr. and Mrs. Irving York have bought a house lot in Oxford Park where they plan to build.

Paul F. Hosmer is substituting on the rural route while the regular carrier, John Judkins, is having a vacation.

The Great Coal and Wood Saving

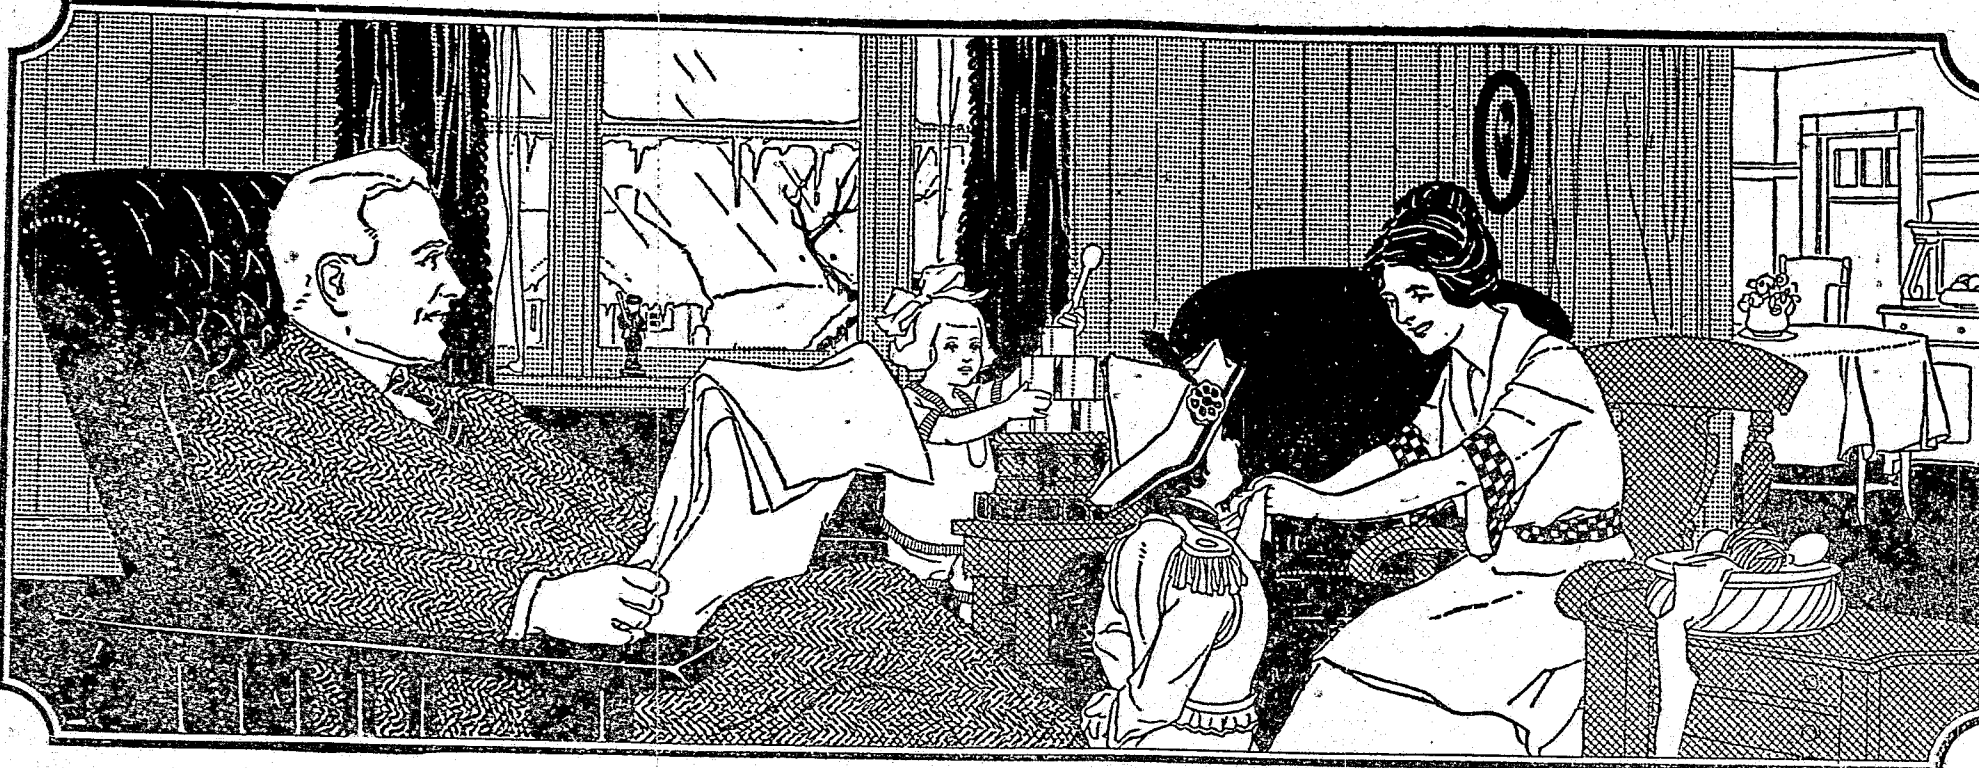

ROUND OAK PIPELESS HEATING SYSTEM

Guaranteed by the \$3,000,000.00 Round Oak organization and the old reliable ULMER INSTALLMENT CO.

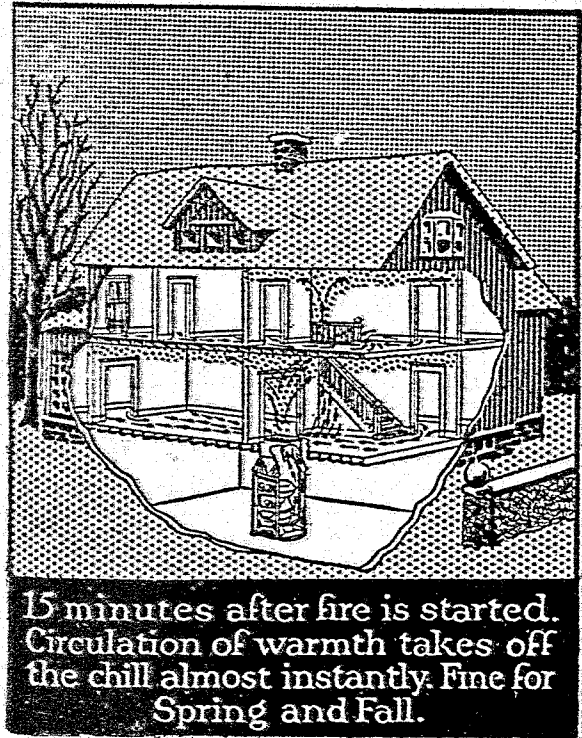

Built for folks who want the most healthful warmth and comfort with cleanliness, convenience and the utmost economy.

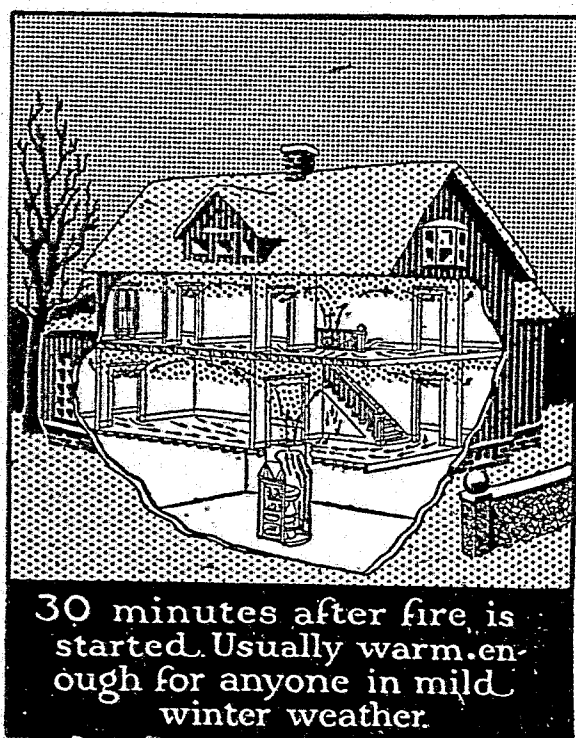

Only installed for folks whose homes are naturally adapted for its guaranteed satisfactory operation. None others can own it at any price.

"Makes cold winter evenings something to look forward to with delight—and the whole year's fuel bill nothing to dread"

Quickly Floods the Home with an Abundant Supply of CLEAN, PURE, CIRCULATING MOISTENED Warmth—with Startling ECONOMY in Coal or Wood

15 minutes after fire is started. Circulation of warmth takes off the chill almost instantly. Fine for Spring and Fall.

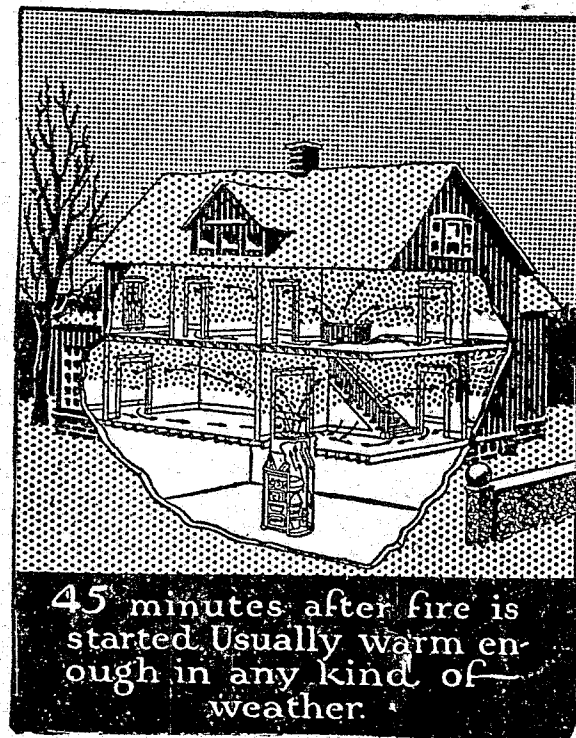

30 minutes after fire is started. Usually warm enough for anyone in mild winter weather.

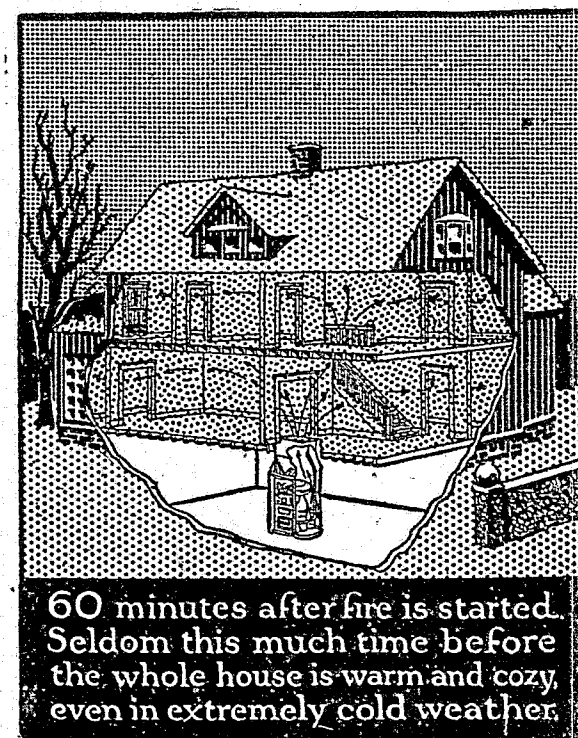

Illustrating the principle of Round Oak Pipeless Heating

The shaded portion represents the circulation of warmth through the house

As volume of warmth increases, cold air, being heavy, drops to the floor, passes down the outside of register, circulates around the heating unit, is warmed, moistened, and rises through the center of register—to quickly equalize the temperature throughout your entire home.

45 minutes after fire is started. Usually warm enough in any kind of weather.

60 minutes after fire is started. Seldom this much time before the whole house is warm and cozy, even in extremely cold weather.

An Exceptional Opportunity to Prepare for the Coming Winter—and Many More—at Lowest Prices for Entire Year

Everyone Should Know WHY the Round Oak is in Such Great Demand Everywhere

Because it places within easy reach of most every home owner the means for reproducing pleasant outdoor summer warmth in one's very own home during bleak cold winter months, or throughout the chilly days of Spring and Fall.

Not only does it do this Nature's most healthful way in circulating and in moistening the warmth, but it pays for itself over and over again in the actual saving of wood or coal—compared with ordinary heating methods.

It is the most convenient and simplest to operate and can be installed in the smallest cellar space of old or new houses without the usual alterations or interference with arrangement of furnishings in living rooms.

Because it is a safe, sound, paying investment—

An Investment Which Increases the Selling or Renting Value of Your Property SUBSTANTIALLY MORE Than the Amount Involved in its Purchase

Plan Now to See The Interesting Display At Our Store

Besides the interesting display of the Round Oak itself, you should see the many photographs of homes, churches, stores, and buildings of all kinds all over New England, in which the Round Oak has given unusual satisfaction in severest winter weather.

Many of these users have written letters which you may read.

A Round Oak Heating Engineer Will be in Norway, June 1st, 2nd, and 3rd.

And will WITHOUT COST OR OBLIGATION TO YOU, examine your home and advise you if it can be heated. Three days only.

Make An Appointment NOW!

How to KNOW Whether or Not Your Place is the Right Kind for the Round Oak Pipeless Heating System

Send us your blue-print plans—if you have them—or make an appointment, without cost or obligation to you, for our representative to examine your place in person.

He will know after a short inspection whether it would likely be acceptable to the Round Oak Engineering Department, and if so, can make a plan to send for their approval.

How to KNOW the Exact Cost for Your Place if it is Suited for the Guaranteed-Satisfactory Operation of a Round Oak

Round Oaks are made in several sizes—some large enough to heat an 18-room house—others small enough for a cottage.

After our representative knows the condition and requirements, he can then tell you exactly to a penny what the total cost will be—all complete, ready for use and without extra material or labor charges, later.

Many places must be examined during the next few days. Phone or write for an early appointment.

Round Oaks are NEVER installed under conditions which will not Warrant a Guarantee of Absolute Satisfaction to the Users

Mrs. Daugherty Awarded Damages

Mrs. Lou Daugherty of South Paris was awarded a verdict of \$5000 by a special jury with Isaac S. Fox of Oxford as foreman at the Supreme Judicial Court at Rumford Saturday. The case was an action brought by Mrs. Daugherty against Miss Leila Tebbets of Auburn in the sum of \$10,000 for injuries by an automobile resulting in the death of her husband L. Howard Daugherty on Oct. 29, 1921. The automobile was owned by the defendant who was a passenger with Mrs. David Hastings, and Miss Florence Hastings at the wheel.

The party were driving over the Concrete highway from Auburn to South Paris. Mr. Daugherty, who was employed in a South Paris garage, had been out driving, and had left his car standing beside the road a few miles below Norway village while he went for some water. He was returning to his car, and had just stepped upon the highway, when the car driven by Miss Hastings approached at a speed, according to testimony of between 20 and 25 miles an hour. It struck Daugherty and carried him fifty or sixty feet, inflicting severe injuries. He was removed to his home in South Paris where he died a few days later.

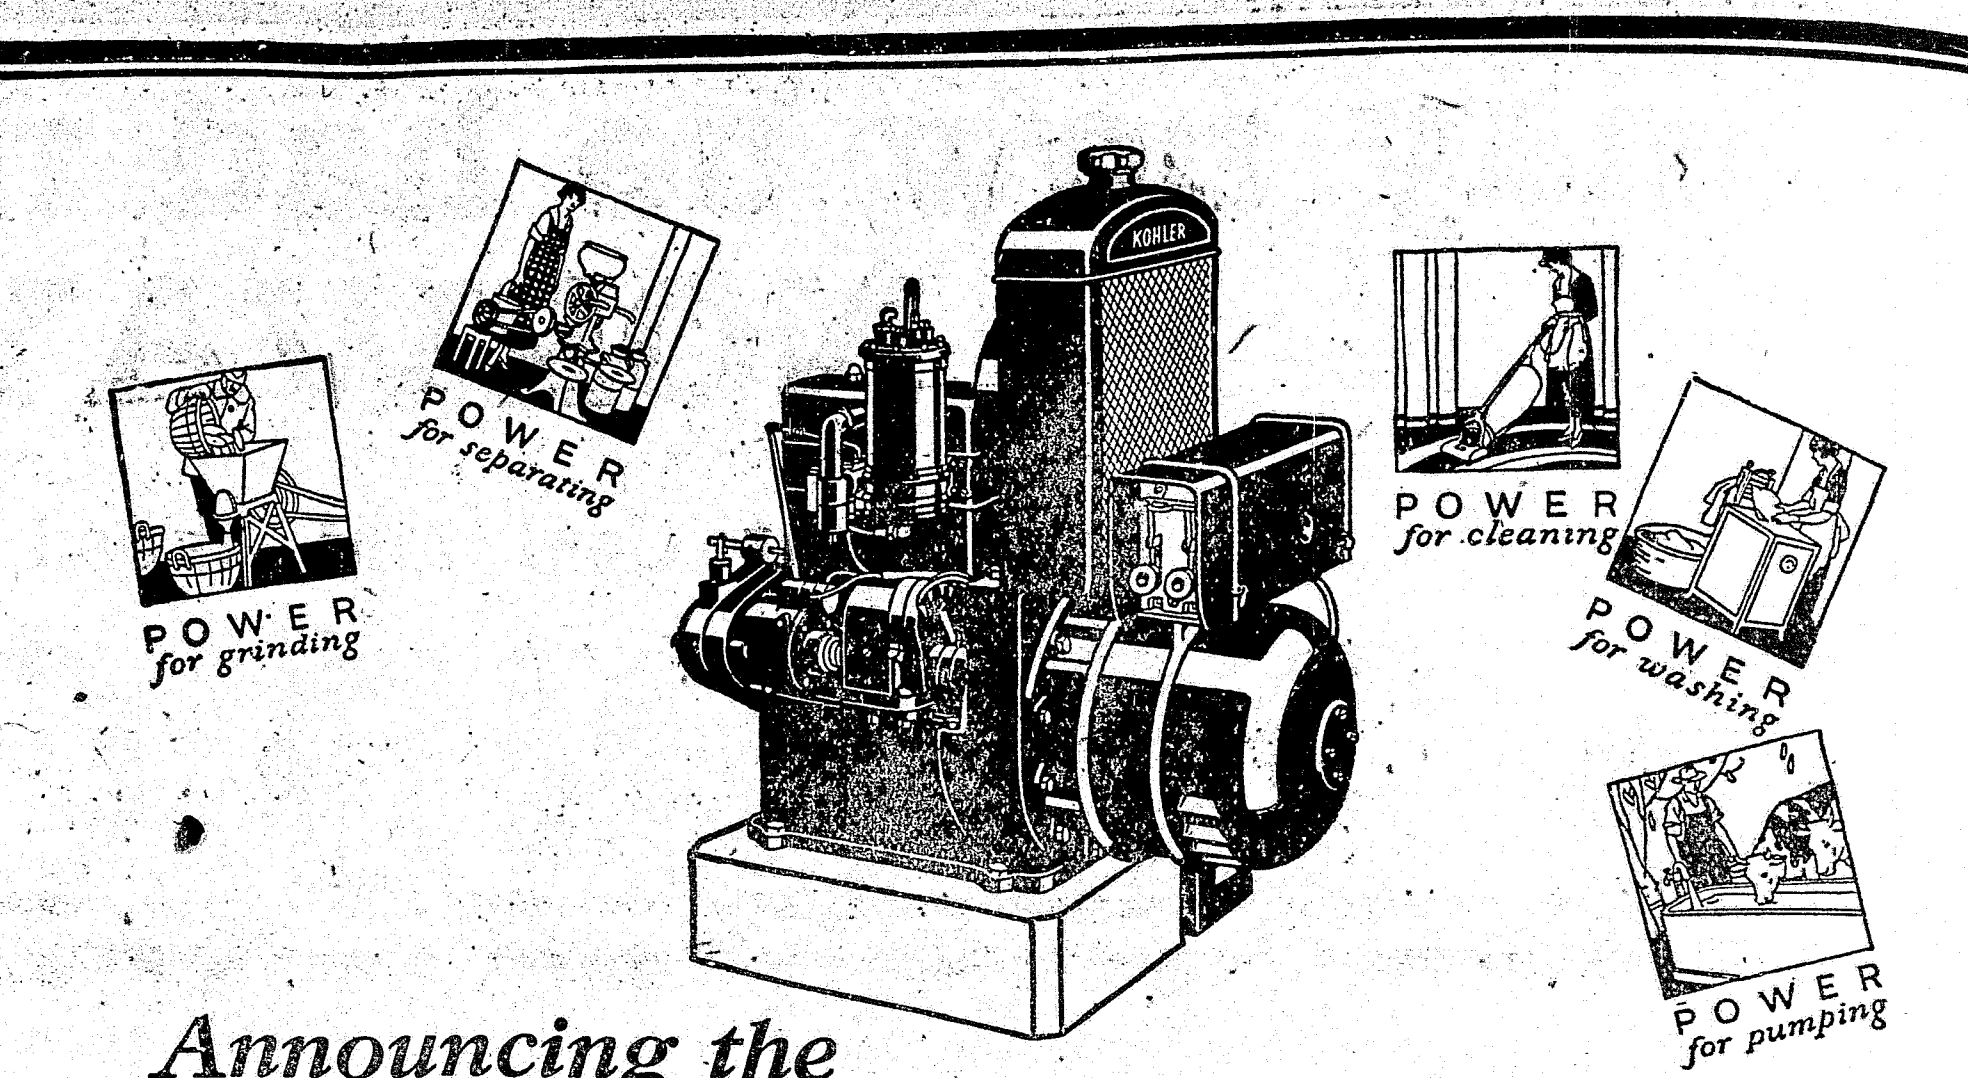

An investigation followed conducted by County Attorney Harry M. Shaw and Sheriff Harry D. Cole but the circumstances did not warrant criminal proceedings and this phase was dropped, the civil action followed.

In court Friday the defendant through her attorneys Hon. F. A. Morey of Lewiston and W. L. Gray of South Paris prepared two defenses. One of non liability on the ground that Mr. Daugherty was negligent himself; the other that his administratrix was not entitled to recover damages because the victim did not sustain any conscious suffering. On the other hand Mrs. Daugherty and her counsel Alton C. Wheeler of South Paris and Frederick R. Dyer of Buckfield denied "contributory negligence" and claimed responsibility on part of the defendant because the car regardless of its speed was not under control to avoid danger.

The defense, in substance was that the car was not being driven, at that place and under all the circumstances, at excessive speed; that its driver was using every reasonable precaution, and that Daugherty had been guilty of negligence. Miss Hastings testified that when he stepped upon the highway she swerved sharply in the hope of avoiding him—but, as she expressed it, he seemed to jump directly in front of the car. He was carried, as stated, some 50 or 60 feet, when, she made another sharp, sharp swerve to the ground. Miss Tebbets and Mrs. Hastings corroborated her—the former verbally, the latter by written deposition. The defense had no other witnesses.

Attorney Wheeler put several witnesses on the stand to show the injured man had periods of consciousness and suffered during the few days before death. The witnesses were Dr. B. F. Bradbury and Dr. H. L. Bartlett, both of Norway, who attended him and Lee M. Dunham of South Paris. Ernest Mercier of Oxford who was in conversation with Mr. Daugherty at Oxford before the accident and visited him twice afterward, testified the injured man recognized him. Carl Robinson of South Paris also testified to the victims suffering while conscious. Mrs. Moffet of Portland, a nurse was placed on the stand by the plaintiff for corroborative testimony. J. H. Stuart of South Paris, a surveyor who had measurements of highway, described in detail the relative position of both automobile and Mr. Daugherty before and after the accident. The case has been appealed.

This case is considered one of the most important legal battles fought in Oxford County for many years and created more than local interest owing to its bearing on future accidents which may occur along the state highway.

Announcing the

KOHLER

Automatic POWER and LIGHT 110 Volt D. C.
—without storage batteries

You now have the opportunity to see, in action, here at our store, the latest successful development in electric power and light plants—the Kohler Automatic.

This plant makes it possible for anyone, anywhere, to produce standard 110-volt electricity for lighting the home and other buildings, operating running water systems and furnishing current to electrical household and power appliances.

You will be surprised to see that the Kohler Automatic operates without storage batteries, which were formerly thought necessary in ordinary electric plants. The only battery used

with the Kohler Automatic is a small automobile-type, to start the engine.

This feature of "no storage batteries" does away with the large banks of glass-cell storage batteries, and eliminates much trouble and expense in maintaining and replacing battery plates.

The Kohler Automatic operates all standard 110-volt light bulbs and power appliances. It produces up to 1500 watts of electricity simply upon the turn of any button anywhere on the circuit and automatically regulates the amount of fuel used to the load being carried.

Write for illustrated literature. Come in and see the plant in operation.

We Know How!

We've been in the battery business long enough to know all the things that can possibly happen to a battery, how serious they are, and whether it will pay to fix what's wrong.

On top of that we know exactly how to do all kinds of battery work.

Every job that's turned out here at Battery Headquarters is done in just the way prescribed by Willard Standards of Service—and there are no higher standards anywhere.

Mothers' Day was observed at the Baptist church, Sunday, with a good sermon by Harold E. Mayo.

Archibald D. Felt was with his mother over Sunday.

Our community was greatly shocked Sunday to learn of the death of Mrs. Wesley Ring at the Maine General Hospital in Lewiston. She passed away Sunday morning. Mrs. Ring was taken to the hospital, Friday forenoon and was operated on for gall stones, it was hoped she would recover but the end came quickly and sadly.

Mrs. Emily J. Felt is visiting her daughter, Lena Felt, in Rumford, for two weeks.

Luvie Cole is spending a week at So. Paris with relatives.

Dr. R. F. Willard and family were in Lewiston, Saturday.

Leslie Abbott and family were Sunday guests of his parents, Mr. and Mrs. Cullen Abbott.

The Fernald, Keene & True Co. are making extensive repairs and changes on their corn factory this spring. James Fernald of Poland is superintending the work.

An iron fence has been put up in front of the station for the park enclosure. Other improvements are to be made in the near future.

The Ethel May Shorey Co. will entertain here Friday evening, May 19. Our people always respond to the coming of this company and they are sure of good patronage. The play will be, "The Sin Ye Do."

FRYEBURG

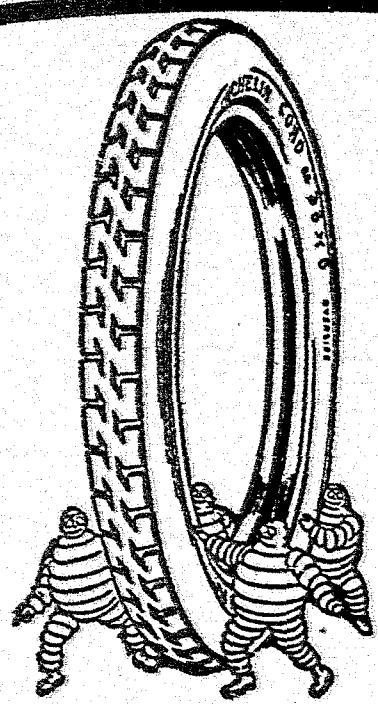

Wallace R. Tarbox, widely known in this section, died Friday, May 12 at his home, following an illness of eight months.

Mr. Tarbox was born in Denmark, March 25, 1852. His entire life, with the exception of three years spent in the West may be said to have been identified with the town of Fryeburg. He had been engaged in the insurance business for 25 years and his business took him over a large part of the county. He was a 32nd degree Mason, a past master of Pythagorean lodge of this place, a member of Portland Commandery, Knight Templar, and Kora Temple Mystic Shrine. He had served Pythagorean Lodge as treasurer for 25 years. Mr. Tarbox was prominent in the Oxford County Agricultural Association, and a leader in the success of the fair, serving as treasurer for 25 years. He is survived by his wife, who before her marriage was Mary Eleanor Tarbox, and whom he married at Belfast, her home, 30 years ago. They had traveled extensively, and in his last illness she had devotedly cared for him.

The funeral was held Monday afternoon from the station for the park enclosure. Places of business were closed during the day of the funeral. A large number of citizens and friends were present, including several from out of town. Rev. James F. Albion, D. D., of the First Universalist Church, Portland, officiated, and was assisted in the service by Rev. Edward W. Wild, pastor of the Congregational Church. Selections were sung by a ladies' quartet.

Pythagorean lodge of Masons of which Mr. Tarbox was a past master conducted the Masonic service, and Edward E. Hastings, John W. Hutchins, Tobias L. Eastman and Benjamin T. Newman, members of the lodge, and intimate associates of Mr. Tarbox, served as bearers.

Interment took place in the family lot in Pine Grove Cemetery.

RADIO DEVELOPMENT

The spectacular development of the wireless telephone commands more serious attention than any discovery within the recollection of the present generation. That it is bound to prove the greatest civilizing influence of the century there can be no doubt. It will far outstrip the talking machine and even the motion picture because its potentiality lies nearer to the root of things. When the American farmer has brought into commercial contact with the remotest part of his country things are going to move. What is to happen to the local band when the boys and girls of every town and hamlet dance to the music of the world's greatest master of the jazz broadcasted from a central point? Business men will do well to give serious and immediate thought to this new development. Already the effect of the wireless is being felt in the talking machine industry. True human nature likes to pick concerts to its own liking, to "put on" the record that pleases for the moment but when the standard of the ready-made concert, as it will, takes into consideration the variety of tastes and wishes the home reproducer is destined to the discard. Quite apart from its commercial aspect, however, let us hope the government will not let slip by unused this great potential service for the people. Wireless communication can be made to lower the death rate, it can be made to check the growth of insanity, it can be the means of making healthier and happier mothers and children, it can spell the spread of sanitation, it can cure the cold and halt the fever. Its blessings can be reflected in the remote hamlets where plain God fearing American people find their homes and do the work of the hour far removed from medical skill and simple social science. For the farmer the possibilities are limitless. Five years or less should see in the cabinet of the United States a secretary of communications—the biggest job in America.—Woodsville Times.

DOES IT PAY TO ADVERTISE?

One of the principal reasons why the United States has come to the forefront in world affairs is because of its publicity methods, local, state, national and international. The value of this was demonstrated in the war as never before, and the high ideals with which the average soldier was imbued undoubtedly had their foundation in the inspiring educational campaign engineered through, voice, word and picture. What is good from a national viewpoint can undoubtedly be applied to modern business matters; and there can be no surer way to end the slump in trade than by proper publicity methods. He who fails to advertise is lost, as is amply proved by the fact that the biggest firms in the country are the largest advertisers.

AUTOMOBILES AND THEIR CARE

Be a Thorough Driver

No person should ever take an automobile out on the well traveled highway unless he has learned how to drive a car and to keep it under proper control at all times.

Cleaning Spark Plugs

By cleaning the spark plugs every week or two, the motorist will find big loads have been taken off the battery, and that the engine will turn over in much shorter time.

Oil in the Crank Case

Oil that has been allowed to remain in the crank case for several months becomes contaminated by dilution, carbon, road dust and water, and loses much of its lubricating value.

Attention to Hidden Parts

The accelerator pedal, the starting motor, generator and all other devices hidden away beneath the hood and floor boards, should be given attention and lubricated at frequent intervals.

When Going Through Mud

A car that is driven over a muddy highway should have chains attached to the wheels. The chains should be tighter than usual, because when too loose the wheels will sometimes spin around inside the chains when the car is stuck.

Inspection of "Boots"

Make a regular inspection of the leather coverings or "boots," which protect the universals and other parts. Flying stones or sticks are apt to destroy these boots, permitting the lubricant to leak out, and giving entrance to dust and dirt.

Cylinder Squeaks

One of the most serious squeaks of a car is one coming from a cylinder, and should be attended to immediately. Lack of oil is the principal cause, and some should be introduced through the relief valve or the spark plug opening. Do not put oil into all the cylinders.

Protecting the Finish of Cars

A cloth should never be used to wipe dust off the fine finish of the car. Because of a fine grit, the cloth will grind it into the highly polished surface and destroy the lustre. When in a hurry, a fine hair duster can be used, but the best way to remove dust is to flow water over it. The first application softens the dust and mud, and the second flow removes most of it. The whole surface should be thoroughly rinsed before drying with a chamois cloth.

Spring Leaves

Rusty spring leaves, which are permitted to stick together, destroy the resiliency of the spring, and make it but little more effective than a solid block of steel. A spring that has rusted fails to function and the shocks of the road are transmitted to the chassis with disastrous effects to the mechanism, as well as discomfort to the passenger. The tires, too, are badly battered. A little care in lubricating the spring leaves will often eliminate broken springs and produce longer life for the car.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing inflammation and restoring normal conditions.

Dresses Made with Standard Patterns
Always Fit

Sleeves go right, "yokes set well" and seams need no "taking in" or "letting out" when the material is cut right in the first place. Until now you couldn't be sure that you were cutting your dress right, for old style patterns varied more or less. But the standard improved pattern with Belrobe chart attached can not change a fraction of an inch. Now you can cut the most expensive material and know that the dress will go together right, because you are practically cutting by the designer's original pattern.

This means a wonderful new simplicity in dress-making and a more successful effect in dress.

BATES—WEST PARIS

A. Freeman Hollis

A. Freeman Hollis died very suddenly Wednesday, May 10. He was working on the road at North Paris and remarked to a man working near him that he felt badly and fell dead of heart trouble.

Mr. Hollis was the son of Luther and Harriet Fletcher Hollis and was born in Summer, July 25, 1861. He lived in So. Paris several years and worked for the Paris Mfg. Co., six years, then he bought a farm on Elm Hill and lived there nine years and for the last 20 years he owned and operated a large farm in Summer which he sold last fall and moved to West Paris in November into a smaller room while he had time and opportunity to find and buy a residence suitable for their home during their later years.

Mr. Hollis was capable and trustworthy having served as selectman of Summer and also on the Republican town committee. He was cheerful, helpful and held in high esteem and had many friends. He was a member of the Mason Lodge of Buckfield, of the I. O. O. F. at South Paris and Union Grange of East Summer.

He married Hattie E. Bisbee of Summer, July 31, 1886, who survives him. They had one son, Harold Hollis, who lives in West Paris, and three little granddaughters. He also leaves two brothers, A. T. Hollis of West Paris and L. W. Hollis of South Paris and a half sister, Mrs. Lois Cobb of Kennebunk.

The funeral was held at the home of his brother, A. T. Hollis, Friday, Rev. Frank A. Lamb of Canton, a friend of the family, officiated. The bearers were from the South Paris I. O. O. F. followed by four honorary bearers from the Buckfield Masons. Interment was in the West Paris cemetery where the I. O. O. F. performed their burial service.

There were many friends and old acquaintances attended the funeral from Summer, Buckfield and South Paris. Mr. and Mrs. H. S. Bisbee of Damariscotta, Mrs. Hollis' brother came to attend the funeral. Mrs. Hollis has gone to stay with their son for the present.

Mrs. Adna Barrows of Paris Hill is spending a week at Harold Hollis'.
